

## Selenium Testing Concepts - 3

**Name:** Pavleen Kaur

**NewerId:** 4648

**Ques 3: What are the advantages of TestNG & TestNG annotations?**

**Ans:**

Advantages of TestNG & TestNG Annotations are:

- TestNG provides parallel execution of test methods.
- TestNG Annotations are very easy to use. In a way, these annotations indicate TestNG about the point when these tests should execute.
- It allows to define dependency of one test method over other method
- Test cases can be *Grouped & Prioritized* more easily
- It has support for parameterizing test cases using @Parameters annotation
- It allows data driven testing using @DataProvider annotation
- It has different assertions that helps in checking the expected and actual results
- Detailed (HTML) reports
